THOUSANDS PAID DUMMY FIRM, LUTTERWORTH REEVE CHARGES

School Daze

The Ministry of Transportation and Communications has been asked to probe charges and admissions that the Deputy-reeve of Lutterworth Township used a non-existent, dummy company to bill the township for work done on its behalf over the past 3½ years.

Monday night Reeve Pat Conaghan, armed with a 15-point questionnaire, charged that his Deputy-reeve Lloyd Walker had billed the township for repairs, service and maintenance to the township dump truck under the name L & D Welding, a firm, he charged which is not registered, and does not pay business tax.

'There is no such company', he said and charged that Mr. Walker had voted on the approval of payment to L & D Welding rather than declaring conflict of interest.

Thousands of dollars appear to be involved with a total of over \$2,400 paid to L & D Welding in 1975 alone and some \$1,600 paid out so far this year. First payment to L & D Welding occurred in April, 1973.

However, Reeve Conaghan said he had found absolutely nothing wrong with the amounts billed.

Approximately 65 percent of these costs are borne by the Ministry of Transportation and Communications, called in to investigate late Tuesday by Reeve Conaghan who said that MTC District Engineer Wes Hamm was scheduled to meet with him Wednesday afternoon at the Lutterworth municipal office.

Mr. Walker's involvement with L & D Welding first became known to Lutterworth council back in late 1973 or 1974. After considering the matter, council at that time gave Mr. Walker a green light and decided no action would be taken.

Monday night Mr. Walker readily admitted that while the billing was done under the name L & D Welding, the work was actually done by his son Lionel, an employee of Mr. Walker's Texaco Garage at Minden.

He told council he had been advised by his auditor to operate through the name L & D Welding and had done so with no intention of doing anything wrong.

Reeve Conaghan told council he would not approve nor sign any future cheques made out to L & D

See DUMMY P. 3

Driver of this Burlington school bus joined police and two truck operators in sheer amazement at his escape unscathed, when it overturned Monday after-

noon on Highway 503, one mile east of Irondale. Francis E. Walton, 26, of Burlington, told police he was eastbound on the highway when he

rounded a short curve, lost control of the bus and entered the south ditch where the bus rolled over onto its roof. Damage was estim-

ated at \$7,000 to the 1976 bus that had just 1,900 miles on it. Walton was enroute to Bark Lake Camp to pick up some Burlington stu-

dents when the accident occurred. Investigating officer, Provincial Constable Brian Ladurantaye charged Walton with careless driving.

Bridge tenders range \$85,972 to \$121,175

Although eight firms were asked to tender bids on the upgrading of Minden's Gull River Bridge, just three responded.

And they had officials squirming until shortly before the deadline hour of 2 pm last Thursday.

Finally, one tender arrived at 1 pm., then a second at 1.22 and third at 1.45 p.m.

Lowest amount tendered was for \$85,972 from Larsen-Grills Construction Ltd. of Cobourg. Mel-Ron Construction Ltd., of Whitby bid \$104,804, while high bid came from Logan Construction Company Ltd., of Peterborough at \$121,175.

Cost of installing and removing a 100-foot Bailey bridge which is planned to carry traffic across the river during the construction-work phase is included in the three prices tendered.

Work to be done on the existing bridge includes replacement of the concrete deck and sidewalks.

With 80 percent of all costs to be borne by the Ministry of Transportation and Communications, Anson, Hindon and Minden ratepayers face a total cost out of local funds of just \$17,194.40 of the first tender, \$20,960.80 of the second and \$24,235 of the third.

\$40,000 repairs for Monmouth arena

Monmouth's Community Arena in Wilberforce faces extensive repairs if it is to comply with the 1971 Safety Act and receive Ministry of Labor approval.

This was revealed last week by Deputy Reeve Keith Tallman who told council an engineer's report had revealed that the arena currently does not comply with the act.

Constructed 26 years ago in 1950, the arena met the safety standards at that time.

While the extent of repairs required together with Meeting today with MTC representatives, council will select the winning tender, with the contractor obliged to commence work within 7 days of notification.

the costs involved is not fully known, cost of repairs could exceed \$40,000 council was told.

Mr. Tallman, however, indicated to council that it would be possible for the

River claims toddler

A two-year old Harcourt area child lost his life in the waters of the Benoit River less than 30 minutes after he wandered away from his home.

Dead is Gregory Allen Anderson, son of Mrs. Betty Ann Anderson of the Benoit River area, near the G.W. Martin Ltd. lumber mill, north of Harcourt.

The tot was playing outside his home early last Friday afternoon about 2 p.m. His mother called him at 2:30 p.m. but he didn't

answer.

His worried mother and two neighbours began searching for the boy along the river bank and found him within minutes floating face down in the river, about 30 feet from shore.

Attending coroner, Dr. Edward Christiansen of Haliburton said cause of death was asphyxiation due to drowning.

The Board of Directors of the Chamber met last week and high on the agenda were the plans for the upcoming annual meeting. The event will take place on October 6th at the brand new PineStone Inn and Country Club. The dinner meeting will be followed by dancing, and a new annual will be the presentation of the Chamber's 'Highlander of the Year' award. The board has selected a local citizen whom they feel has contributed an outstanding effort towards the betterment of our community. This promises to be THE social event of the year and we look forward to seeing many of you there. All of the directors, as well as the Chamber office now have the tickets available at only \$15.00 per couple.

With so much activity presently underway the board decided to postpone the Elimination-Draw Dance in Wilberforce to December 11th. This event will not only enable you to have an enjoyable evening at the new Lloyd Watson Hall, dancing to live music, but a chance to win \$1,000.00 in cash if your ticket is the last one remaining in the drum. Many other prizes will be awarded throughout the evening as well. Tickets will be available by next week.

The community calendar has also had to be postponed, mainly due to the fact that most of the service clubs were unable to give us their social calendar prior to the middle of September. If you haven't ordered your calendar yet, why not call us now? For only \$2.50 you get a calendar with your anniversary and the entire family's birth dates shown along with all your friends and neighbours, and listing most of the years social events all shown on the dates they are happening.

We are pleased to report that 16 people came out to Deer Lodge last week to get the Haliburton Highlands Cross Country Ski Club underway. The meeting was also attended by Ken Fielding and Steve Berry representing our Snowmobile Association. In most parts of the country, snowmobilers and skiers are at each other's throats, but at least here in Haliburton, there is a good spirit of co-operation. Ken and Steve were able to supply the group with a considerable amount of good advice based on their own association's experience and they also pledged their continued co-operation. The Lake Kashagawigamog Resort Area Association were also represented and explained that they would like to work with the club in the development of trails in their immediate area. The initial projects therefore, will be trails around Lake Kashagawigamog and Glebe Centennial Park at Haliburton and they hope to run a Ski Loppet in conjunction with the Haliburton Winter Carnival. Their scope would certainly enlarge with the appearance of interested parties from other areas. If you are interested in Cross Country Skiing, we suggest you contact either Blair Pearce at 457-1085 or John Beachli at 457-2973. We certainly wish them success.

We have been quoted recently as saying that the past tourist season has been a good one. It is only fair to qualify that by adding that this is comparatively speaking. Very few operators experienced any substantial increase in business and many had a decrease, but compared to other tourist areas that we are in contact with, we did far better than most. We are also well aware that the return on investment dollar is far from satisfactory which of course, results in a great many places currently being for sale. In order to rectify this we must continually work towards establishing more than just a two month tourist season and try to keep overheads down. A major tourist attraction would be a big help. We have asked before for your ideas, and we ask again. Do you have any ideas??

Comments from Kinmount

By Fran Crawford

A sad note for our news this week. Deepest sympathy goes out from all of Kinmount to the relatives of Bob Young who passed away suddenly on Sunday, September 19th.

Mr. and Mrs. Wesley Sargeant of Peterborough surprised Gramma Bacon of Furnace Falls when they dropped in Friday afternoon and had a nice visit with her.

Mr. Jim Peacock went to the hospital Friday morning. Hope you will soon be well, Mr. Peacock.

Jerry and Rolly Spencer's parents, Mr. and Mrs. Allan Spencer of Great Village, Nova Scotia motored up with their granddaughter and her husband to spend a few days with the boys and their families at Furnace Falls. Mrs. Spencer will be celebrating her 88th birthday this Friday and Mr. Spencer will be 86 in December. God willing.

Mr. Jack Phillips was at a convention in Toronto and ended up in hospital. I believe it was a blood clot near his heart. Everyone is putting in a little prayer for a quick recoverywe know you can make it, Jack.

Mrs. Charlie Henderson is home from hospital but still not feeling too well. I hear Charlie is a pretty good nurse, so she should be out around soon.

A couple of elderly men were reminiscing, 'Almost all our friends are gone, but I miss Frank the most,' said Bill. 'Why Frank', asked his friend. 'Because I married his widow', replied Bill.

LEGION 441

The Ladies Auxiliary held their monthly meeting in the hall last week but no special news from that except that Dagmar Simpson and Violet Schroeter are attending the Provincial Convention in Windsor this week.

The men had their meeting but I didn't get any news from them.

I said I would have to go to Bingo and I did. Here are winners - some even two or three times: Jean McKelvey and Joan Kernohan of Minden, Kay Taylor of Burnt River, Violet Schroeter, Mr. Newell, Robert Zeus, Yvonne Stata, Erika Zeus, Donna Shaw, Mrs. Newell, Mrs. Peacock, Thelma Crego, Lynda Schroeter, Nora Swinson, Elaine Farrell, Ruby Henderson and last and least - me I won \$1.70. I really should frame that.

Saturday night we had Tommy Williamson -disc jockey for our dance. We didn't have too big a crowd but everyone had a good time. We had visitors from Lindsay, Bobcaygeon, Minden, Norland and a few out of towners that we did not know. This week I think it will be Marg Graham and her westernaires.

Miss Cindy Crego won \$42.00 in the 50 - 50 draw Congratulations!!

Remember when.....you could buy a nickels worth of something and pass it around !!

Built bridge from manual...LeLiever

A culvert, which collapsed last May killing three persons, was constructed by a clerk-labourer from an instruction manual he didn't fully understand, a coroner's inquest was told last week.

Steve LeLiever testified that in March of this year he was 'clerk of the works' as well as a laborer on the construction site. He said that he started working for Harry Curry Bishop Ltd, in September of 1975 but had had no previous experience in culvert construction.

Curry Bishop, of Harry Curry Bishop Ltd., was commissioned by the Hawk Lake Cottagers Association to design the Hawk Lake causeway to replace an old bridge and Tye Irwin, a certified engineering technician was put in charge, according to earlier testimony.

Bishop's company acted as the cottager's agent and got individual sub-contractors to supply the necessary materials and equipment. This was necessary because the cottagers association was not a recognized legal entity and the various suppliers would not do business with them. In effect Bishop's company was guaranteeing the cottagers' credit Mr. Irwin told the inquest.

Mr. LeLiever told the coroner's jury that he had about 3 years experience as a construction interior designer while he was working his way through a college course, which, had he completed it, would have given him a certificate in architectural technology.

The inquest is investigating the deaths of Margaret Helen Hichman, 69, of Toronto and her two grandchildren, Karen Schram, 7, and Gordon Schram, 9, both of Peterborough. They died when the 200-foot culvert-causeway, on which they were walking, collapsed, burying them under earth and landfill.

Mr. LeLiever testified that he felt Mr. Bishop was

his boss, Mr. Irwin his superior and that he was instructed to take orders from Warren Jenner, a representative of the culvert suppliers, Westeel/Rosco.

Westeel/Rosco supply manuals to assist in the construction of their culverts but LeLiever said that he had never seen one before. Instead, LeLiever used a corrugated Ideal Pipe technical manual which illustrated various culverts, of differing dimensions during different stages of construction.

'You must remember I'm not an engineer, and some of the terms are technical', LeLiever testified in reference to the C.S.P. manual. 'I tried to understand it to the best of my knowledge and ability', he continued.

LeLiever said he read quite a few things in the C.S.P. manual which seemed pertinent. 'When we had all the culvert plates together it was then that we noticed the gap', he recounted. The gap measured some ten to fifteen feet at the top of the culvert.

'We looked at it in amazement...this can't be right', LeLiever testified.

LeLiever said he phoned Westeel/Rosco for help and that the next day two representatives of the company, Mr. Jenner and Mr. Azar came to the site and suggested various methods of drawing the culvert together. They told him to bring it together 'any way you can', LeLiever testified.

LeLiever said that the bolts were tightened, prior to drawing it together with steel rods and clamps. After the operation the bolts were checked again for proper torque. He said soil compaction tests were not done because of the extreme winter conditions and that it would have caused delays. He said they didn't feel any more compaction could be achieved than had already been done.

50-50 DRAW

\$30,000 Grant

Ken Fielding

Steve Berry

It took a whole year for approval but last week the Haliburton County Snowmobile Association learned that it has been awarded a Wintario grant of \$30,000. Only condition of the grant is that the association's trails be open to the general snowmobiling public, a past and continuing practice of the H.C.S.A.

The grant, of which the association must raise half, will enable them to pay for the present BOMBI trail groomer and to purchase a second. Additionally, it will permit acquisition of a clubhouse for the association and the purchase of some 400 high quality trail markers.

According to H.C.S.A. President Ken Fielding and Vice-president Steve Berry,

the association executive has its eye on an existing structure in the area of sufficient size to provide a meeting room, office and equipment and sign storage. They hope to have it open to the membership on weekends.

Now entering its 6th year, the H.C.S.A. has some 500 miles of snowmobiling trails of which 250 miles must be widened for BOMBI grooming. With two BOMBIS it will be possible to groom some 400 miles of trails each week of the season. Additionally, the association has applied for a \$11,000 L.I.P. grant plus annual funds from the Ministry of Natural Resources for the preparation and the grooming of trails. Once completed, the H.C.S.A. will be able to boast the most miles of quality trails of any similar association in Ontario.

Don't waste a drop!

After the furnace, the water heater is the biggest user of energy in your home. Waste hot water, and you're wasting valuable energy.

That's a good reason for getting full value from your water heater in every way you can. By fixing leaky faucets.

By insulating long runs of hot water pipe.

By waiting until you have a full load before you switch on the clothes or dishwasher. By using

cold or cool water when it will do the job.

By taking shorter showers or shallower baths.

By making sure that all the hot water that eventually goes down the drain works hard for

you before it goes.

The Cascade electric

water heater gives you a

dependable supply of hot water

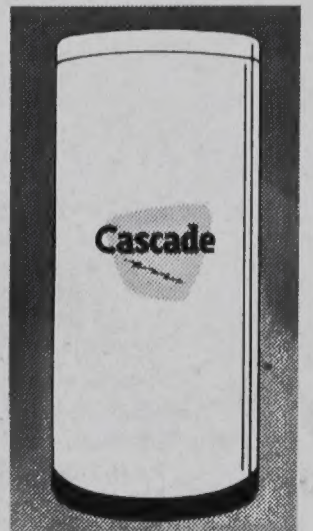

and it makes good use of all

the energy it consumes. But it's

up to you to use hot water

wisely. Don't waste a drop.

Editorially

Rally 'Round

Hats off to the people of Wilberforce and Monmouth Township.

Just days after they learned that their arena would be closed unless immediate repairs were made at a cost in excess of \$40,000 they had made their plans to raise their share of the monies.

This amounts to some \$10,000 or more and the good burgers of Monmouth are determined they will not use tax monies to raise it either.

Instead, they've come up with their own gala Autumn-fest for Thanksgiving Weekend, complete with oompa band and goodness knows what else. The theme is, naturally, 'Save Our Arena'.

Will they raise those needed dollars?

Well, after all, they're an exuberant, enthusiastic and hard-driving group in Monmouth and their optimism is only exceeded by their accomplishments.

Just look for instance, at what they've done in their community already.

Sure they'll make it and the rest of Haliburton might just rally 'round and give them a hand!

Hoping For An Early Fall

A Loss

Report from Queen's Park

by

John Eakins, M.P.P.

Prime Minister Trudeau's cabinet reshuffle seems to have been just about that and little more if all those Ottawa pundits are to be believed.

For the most part it seems to have consisted of simply the Ottawa version of musical chairs.

But in all fairness Canadians should give the new line-up a reasonable chance.

After all, even a TV program gets a 13-week crack at the viewers unless it's exceptionally bad.

But, to many, many Canadians the real tragedy of the cabinet changes this time is the loss of Bryce Mackasey.

An outspoken and able administrator, Mr. Mackasey could never ever be confused with a pussyfoot.

His especial talent is his ability to convey a warmth and concern for the worker, the small businessman and the everyday, ordinary joe.

Hopefully we have not heard the last of Bryce Mackasey.

Registration No. 0936

SUBSCRIPTIONS \$5.00 PER YEAR

For the majority of people in the Province, the most interesting aspect of Wintario is the possibility that, if Lady Luck smiles in the right direction, they may be one of the 'Big Winners'. However, the main objective of the Government in putting this scheme into effect was to raise funds for the support and encouragement of cultural and recreational activities.

During its first fiscal year, which ended last March, Wintario had profits of \$42 million, and announced grants of \$25.6 million. To date, more than \$52 million has been awarded in grants for such diverse purposes as a million dollar art complex, baseball uniforms for old timers' teams, and a grape-stomping festival. Recently the Government has announced that municipalities with arenas which have been assessed as unsafe can qualify for assistance through Wintario, in addition to the 25% of the total cost of repair and replacement which is to be granted to selected arenas under the Community Recreation Centres Act.

There is one quite unique Wintario grant which should be mentioned, the case of the newly-formed Multi-cultural History Society of Ontario. The booklet 'How to share in Wintario' released approximately one year ago, stated that a comprehensive multicultural history of Ontario would be commissioned, and this is the only project fully financed by Wintario. The amount of the grant is \$3 million.

The revenue from each one-dollar Wintario ticket purchased is divided as follows: 38 cents allocated to grants, 42 cents to prizes, 13 cents to sales commission and 7 cents to administration costs. Grants are available for projects in five broad areas: arts support, sports and fitness, public libraries, multicultural activities and heritage conservation. The amount of grant varies with the type of project and the category into which it is placed. There has been considerable criticism of the methods used to determine criteria for grants, and the problems many groups encounter in attempting to qualify for Wintario grants.

Basically, there are two types of Wintario grant. The first is an operating grant, awarded on a one-time basis, for a specific project or need. Requests are only considered before the event, and applicants are requested to supply detailed information on the proposed budget, other sources of funding, structure of the organization, and the names of people in the community who support the project. Wintario supplies a simple application form and experience has proven that applications tend to be processed more quickly if very detailed information is supplied.

The second type of Wintario grant is for capital requirements, and here the funding procedure is more complicated and on a 'matching' basis. In Southern Ontario, eligible projects receive up to one-third funding (after all other federal and provincial grants have been deducted). However Wintario will only 'match' all corporate and private funding on a dollar-for-dollar basis. In Eastern and Northern Ontario, Wintario's contribution would amount to half the cost of the project after other grants have been deducted, and every corporate and private dollar would be matched by \$2 from the lottery funds. The procedure varies slightly for multi-cultural or special purpose facilities.

Wintario has defined 'capital' as 'the purchase, construction restoration or alteration of buildings (or land), site works or permanent equipment'. All facilities must be owned by an incorporated non-profit organization, a municipality or a public agency. They must be available to the general public and there must be a demonstrated ability to sustain operation costs.

The entire area of capital funding by Wintario has been strongly criticized by both Opposition Parties and Toronto's Globe and Mail carried an editorial on September 1st headed 'Wintario's costly grants', which stressed the fact that a grant from Wintario 'is a far cry from an outright giveaway', that 'there are some very expensive - and, in many cases, prohibitively expensive - strings attached.' The editorial also endorsed Liberal Leader Stuart Smith's suggestion that 'the guidelines governing the Wintario grants program should take each community's per capita income into account. That way, a wealthy community might still have to make a dollar-for-dollar split with Wintario while a poorer one would only have to raise 50 cents on the dollar or 25 cents on the dollar.'

Wintario continues to expand beyond all expectations. Therefore, there is a great deal of money available for cultural and recreational activities. However, there have been a number of suggestions that all this money should not be allocated for specifically cultural or recreational purposes. Liberal Vince Kerrio (Niagara Falls) has suggested that some Wintario money could be used to keep hospitals in operation, which are at present threatened by government restraint measures. Minister of Environment, George Kerr, has suggested that some Wintario money could be utilized to clean up the mines in the Northern part of the province. In a period of restraint, obviously all government spending, is under review.

Report from Parliament

by

William Scott M.P.

1976-77 LIP ALLOCATION ANNOUNCED FOR VICTORIA-HALIBURTON

Bill Scott, M.P. for Victoria-Haliburton has recently learned of the 1976-77 Local Initiative Program allocation for this riding. Mr. Robert Andras, former Minister of Manpower and Immigration, in announcing the allocation indicated that the basic objective underlining the formula used to reach this figure is to distribute the funds in such a way as to respond to Canada's regionally varied unemployment situation.

A rather complex formula has been devised to arrive at the various figures for each individual riding across the country. A basic allocation of \$75,000 has been allocated per constituency and this is then modified by weighing various factors which affect the local unemployment picture. Consequently, the total allocation for Victoria-Haliburton is \$232,000.

It is interesting to note that this figure is substantially more

than in most other years that the LIP program has been functioning. For example, in 1972-73 the total federal contribution was \$252,590. This however, was under a program which has since been modified in subsequent years. In 1973-74, 11 projects out of some 60 which applications were funded in the riding for a total contribution of \$103,998. In 1974-75, 15 applications were received and 7 of these received funding for a total contribution of \$105,404.

Last year, 63 applications were received and of these 14 were funded for a total contribution of \$205,000.

The Local Initiatives Program has now entered a new season. A Constituency Advisory Board, made up of citizens from throughout the riding as well as departmental officials, consider all applications received and assign them a priority rating for funding. Final responsibility and authority for decisions rest with the Minister of Manpower and Immigration.

OTTAWA and Small Business

Economies for small firms

By KENNETH McDONALD

The present combination of big institutions, big cities and big welfare rests on a myth -- that bigness provides economies of scale. On the contrary, except in special cases, bigness results from mergers and acquisitions -- organizing small and medium-sized enterprises under common ownership.

power, prestige and control of markets.

Public policy should be directed toward insuring that the advantages enjoyed by multi-plant or conglomerate forms of enterprise are equally available to owner-managed firms.

For example, service bureaus can provide computer services; consortia of small firms can provide efficiencies in purchasing or in negotiating consulting services; trade associations can provide economies in promotion, training and standardization; and special financial institutions can offset the natural bias of the capital markets against small enterprises. And, of course, institutions like the Canadian Federation of Independent Business can provide the collective political muscle.

The enterprising Japanese have also destroyed the North American myth that bigness is needed to compete in export markets. Forty-nine per cent of Japan's export sales come from small and medium-sized businesses.

Bigness is really a philosophical question -- whether power and control should be centralized or decentralized. By their very nature, small and medium-sized enterprises distribute power and control. But their social effect is far reaching. As they prosper, they develop regions, build communities and provide opportunities for individuals.

A recent U.S. Senate study shows that, though large multi-plant U.S. corporations provide 73 per cent of all manufacturing employment, they constitute only 3 per cent of all corporations. The average work force in each of the plants is 203 people. Take out the obvious big auto, defence and electrical equipment plants, and the average drops to 100.

In Japan, 69 per cent of all manufacturing workers are employed by small and medium-sized independent businesses. In the U.S. it is the big multi-plant corporations that employ 73 per cent of all manufacturing workers; only 27 per cent work for owner-managers.

In other words, the majority of plants operated by the largest U.S. firms would be classified as small businesses if they were independently owned.

The phenomenon is duplicated in Canada. Yet there are no inherent advantages to common ownership. It confers neither efficiency nor economies of scale, but rather the artificial economies that come from

ONTARIO CHAMBER OF COMMERCE

PROVINCIAL AFFAIRS OVERVIEW

The Province of Ontario, conditioned to expect prosperity and social development as a matter of course, has arrived at a critical turning point in its development. A number of influences, both internal and global in character, have interacted in such a way as to produce a set of challenges which will test the leadership of Ontario's public and private sectors in an unprecedented manner. In the context of this situation, a Cabinet presentation by the Ontario Chamber of Commerce takes on a special significance. The rapport between business and government must improve during times of crisis, rather than degenerate into an exchange of invective. This meeting reflects our mutual endorsement of that principle.

We are proud of the record of government relations which has characterized the 65 year history of the Ontario Chamber. A measurement of our success can be found in a large number of recommendations from the Chamber which have found their way into legislation and government policy. It is also fair to state that a large number of our recommendations have not met with government approval and the Chamber recognizes that business is but one voice government must heed in the performance of its duty. It is with this understanding that the following evaluation of policies, programmes, and legislation is presented, representing the major priorities identified by the 49,000 Chamber members in Ontario.

Perspective on Government Performance

Fiscal Policy

In reviewing the performance of the 1976 Ontario Budget, the Ontario Chamber is generally impressed by the exemplary leadership shown by the Government of Ontario in the practice of restraint. Furthermore, we recognize the difficulty in adhering to goals of restraint as evidenced by the anticipated increase in health spending brought about in part by a continental immunization programme. However, a preliminary overview of individual ministry accounts reveals a clear intention to maintain the discipline promised in the budget papers.

There is some anticipation that the shortfall in receipts from personal income tax will result in an upward adjustment in the coming period. If this increase is being anticipated, the Chamber challenges the necessity. Soaring inflation in recent years has generated a concomitant windfall for government treasuries in the form of increased personal income tax revenues. As all of us are now engaged in an effort to blunt the thrust of inflation, perhaps it is time for revenue planners to reconcile to the fact that if we succeed, there will

be a consequent reduction of tax revenues. Attempts to recapture these subsequent budgets will only perpetuate the cycle we are trying to abate.

Having complimented the ministries individually for their fiscal responsibility, the Chamber nevertheless has some reservations with regard to the allocation of the province's financial resources. This country spends a "world-leading" 8.6% of its GNP on education, and in Ontario we see no significant indications of restraint either being practiced or planned in education spending. School enrolments in this Province are decreasing, and this alone should suffice to bring about the long overdue stabilization of education spending. The education crisis, if indeed we ever had one, that precipitated this unbridled expenditure appears well behind us.

Finally, the Ontario Chamber is pleased to note that the Government intends to maintain its policy of refraining from new net public borrowing. Even with our enviable credit rating, this Province cannot afford at this time to add to the \$2.5 million dollars per day interest on debt which we currently must meet.

Legislative Concerns

Through our regular programme of liaison with individual ministries, the Ontario Chamber has utilized many opportunities to comment specifically on a wide range of legislative matters arising from the last session. Many of these matters will be reintroduced in subsequent consultation meetings with Cabinet ministers, however, there are two major items which we feel warrant separate attention at this point.

The first relates to Bill 110, the Consumer Products Warranties Act 1976. The Chamber acknowledges the considerable effort expended by Government to take soundings in all sectors prior to introducing this legislation. Although the incidence of unscrupulous business practice is fortunately minute, the legislative framework to cope with it in the interest of the consumer must be there. It is our view however that this legislation goes beyond these requirements, and does so in a manner which could create chaos in the marketplace if a number of amendments are not introduced. It imposes arbitrary relationships between the manufacturer and the retailer which bear little relation to the realities of the marketplace. It applies the anticipated reverse onus provisions against business but in so doing, establishes guidelines which are vague at best, and particularly unsettling to smaller businesses. The very objectives of the legislation are compromised by its incongruity, and a careful revision appears urgently required prior to enactment.

Our second major concern in the area of legislative activity relates to the reform of property tax proposals contained in the 1976 budget papers. These proposals

have had an unsettling effect on business and communities throughout the Province as reported to us through our 180 member Chambers of Commerce. We agree with the first objective of simplification and stabilization of the Ontario property tax system. We view this instability not only in terms of the multiplicity of approaches, but also in the general spiral of property tax increases which has confronted business and residential tax payers alike in the last few years. The causes underlying this cycle of tax increases are many and well known, including the continually rising cost of local Government in hundreds of Ontario communities. The observation must be made that business in many communities fears that it will be singled out as a cushion to absorb the impact of further tax increases to residential tax payers. If this is to occur, the benefits to the residential group will be short

term indeed because in many communities marginal businesses will perish and new businesses will be steered away. In a short time, the residential tax payer will be faced with a new cycle of increases, possibly worse than the one we are currently experiencing.

We understand that the response to the public hearings on the reform proposals has been less than satisfactory, and we credit this in a large measure to the fact that business and the general public do not have access to sufficient data to enable them to evaluate the Government's proposals in anything more than general terms. The Chamber suggests that public involvement in the development of Government policy is predicated upon the availability of complete information and suggests that this broad principle must be expeditiously applied in connection with this proposal.

Con't next week

Minden electricians named to executive

Two Minden electrical contractors were elected to the executive of the Ontario Electrical League in Fenelon Falls last week.

Named vice-president was William F. Payne, of Modern Electric, while Douglas Pritchard, of Pritchard Electric was made a director of the group.

The well-attended meeting of the League's Victoria-Haliburton Chapter elected Malcolm Bradt of M. Bradt Electrical Contractors of Lindsay as President to succeed past President Clifford J. Stoughton of Gooderham for the forthcoming term. Other officers elected were: Secretary-

treasurer, Ray Harrison of Lindsay Electric Wholesale of Lindsay and Directors Robert Walton of Ontario Hydro of Fenelon Falls, Henry Mark of Mark Electric of Little Britain, Gord Mitchell of G.A. Mitchell Insulation of Fenelon Falls and William Pethick of Pethick Electric of Woodville.

The Ontario Electric League (O.E.L.) is a non-profit province-wide organization of electrical contracting, industry, utilities, supply and distribution segments of the electrical business. The league's objective is to promote better products, better service and better understanding between the

public and the electrical industry. The promotion of energy conservation will be one of the Victoria-Haliburton Chapter's main projects for the immediate and long range situations.

Deny O.P.P. understaffed

Recent reports that an Ontario Provincial Police corporal told Dysart council the O.P.P.'s Minden Detachment is understaffed were denied this week by others present at the council meeting, including Progress reporter Cliff Burke. Last week other newspapers reported that Corporal Terry Sneddon had told council the detachment was in need of more men. Those present agreed the corporal had simply indicated the detachment had its full complement of men but that other requirements and duties meant that some officers might not always be immediately available. Officers face a variety of duties, such as court appearances, and special event duties such as the Olympics or Mosport which may at times take them briefly out of the detachment area.

There are 108 mountain peaks of over 24,000 feet. Ninety-six of them are in the Himalayas.

Obituary

Pete Sawyer

A well-known and popular Stanhope Township resident and former Stanhope Reeve, Gordon Benjamin (Pete) Sawyer died last Friday in Minden Hospital.

He was in his 72nd year and had been in ill health for some time.

Raised on his parent's Stanhope Township farm, Pete, as he was affectionately known, got his education at Maple Lake before embarking on a logging and trapping career that made him personally familiar with almost every corner of Haliburton County.

In 1938 he married the former Mabel Upton and then in the early 1940's built Oakview Lodge on Little Hawk Lake where he ran the lodge and hosted popular deer hunting parties until his health began to fail about 1973.

A man who enjoyed and felt at home in the outdoors, he was an ardent hunter and fisherman.

Mr. Sawyer was a member of North Entrance A.F.A.M. Lodge No. 463 of Stanhope. He is survived by his wife, Mabel, brothers, Roscoe, Elmer, Lorne and Clair and two sisters: Zella, (Mrs. E.

Packard) and Gertrude (Mrs. L. Upton).

Funeral service was held in Minden last Monday with pallbearers Win and Sherman Cruikshanks, Jerry and Bob Johnston, Lloyd Harrison and Allan McKnight.

Robert Young Sr.

The Minden area community was shocked and saddened to learn of the sudden passing of Minden resident, Robert Young Sr. The late Mr. Young was admitted to Minden Red Cross Hospital last Thursday for a 48 hour observation

period. He had been suffering a heart condition. After being on the cardiac monitoring machine and feeling better, he phoned his wife, Marjorie to come to the hospital and take him home.

Before she arrived, he suffered more chest pains. In consultation with his Lindsay doctor and Minden doctor it was decided to transport him to Ross Memorial Hospital in Lindsay.

A nurse accompanied him in the Minden ambulance but he experienced more severe chest pains enroute and passed away in the emergency ward of Ross Memorial Hospital.

A popular and well-respected man, Bob was an active member of the Masonic Lodge and a 25 year employee of Ontario Hydro. He was in his 52nd year. The late Mr. Young rested at the John Welch and Son Funeral Parlor in Minden, Monday and Tuesday, with

the funeral service Wednesday afternoon and interment in the Kinmount cemetery. The Masonic Lodge held a memorial service Tuesday evening.

Mr. Young is survived by his wife Marjorie; daughter Connie (Mrs. John Robinson) of Hamilton; sons Robbie and Scott at home; mother, Mrs. Georgina Young of Kinmount; sisters, Grace (Mrs. H. Kelso) of Bobcaygeon, Glenda (Mrs. Clarke Simpson) of Kinmount, Anne (Mrs. Gord Condor) of Barrie; and brother, Joe of Geraldton. On behalf of his many friends and acquaintances, the Progress extend its deepest sympathy to his wife and family on the loss of a fine father and husband and a dearly beloved friend.

Seat belts and lower speeds do save lives.

This is what Ontario's new regulations are proving.

Since January 1, 1976, Ontario motorists have been required to wear seat belts. And since that date, Ontario speed limits have been lowered to 60 miles per hour on freeways and 50 miles per hour on other highways.

These new regulations are paying off. For the first 6 months of 1976, there were 66 fewer deaths on Ontario highways and 6,765 fewer injuries.

Police officials in major Ontario centres credit the wearing of seat belts and the lower speeds with these lower death and injury rates. And indeed, improved safety is the prime reason for the regulations. But there are other benefits, too. When you drive slower, you save gasoline — and lower your fuel costs.

So buckle up. Slow down and drive sensibly. For your free copy of the booklet "What You Should Know About Seat Belts," write to:

Hall's
Lake
News

Doreen Stinson

Rather pleasant weather all week, but very few people around the Lake this weekend. Guess they are waiting for the bright colours and Thanksgiving and just hope the heavy rain this Friday and Monday do not spoil the usual display.

Nice to see the Rev. Thomas Gracie when he popped in for a wee visit the other evening. His good wife Betty was spending a weekend at their Hawk Lake cottage with a group of young people. We believe she is to be a guest speaker at the A.C.W. meeting in Haliburton next Monday evening.

The sympathy of the community and the Township of Stanhope is extended to Mrs. Mabel Sawyer, whose husband, Gordon (better known as Pete) passed away in the Minden Hospital on Friday, after a lengthy and serious illness. Mr. Sawyer served on the Stanhope Council for some time and worked on elections and enumerating. He and Mabel owned and operated Oakview Lodge at Hawk Lake until a few years ago and were widely known. It was nice that Mr. Jack Stiver has been able to be with them during this difficult time.

Had good friends of Mr. and Mrs. Irvine of Hawk Lake in for tea the other evening, from the States. The Irvines are the parents of Audrey Chambers.

Mr. Grant Montgomery and his son, Bob came up for the weekend to work on an unfinished carpentry project they started during their vacation.

Had an enjoyable scenic cruise out of Midland last Monday, through many smaller islands to Honey Harbour. The beautiful cottages, lodges and marinas around the shore were nice to see and sitting on top deck with the sun and warm breezes blowing through our hair, we lost that tired-out feeling one has after a long summer. The ensuing motor trip around Collingwood area (where we visited a candy factory and a pottery industry) to Owen Sound, Mount Forest, Fergus and Belwood and back home through Beaver Valley which is a particularly beautiful part of the country. Just a four-day break but it makes a world of difference.

Mr. Hart is home again after another visit with his daughter in Etobicoke and helping Bill Small to build a plane, which he hopes to fly up here one of these days.

The Hyland Crest Auxiliary is opening its fall season on Monday, the 27th with a pot-luck supper. All members are encouraged to attend and any new or potential members are asked to come along and bring your culinary specialty. We hope to hear what Mrs. Beryl Gilmore heard at the big Conference in Toronto last week which might give us some new ideas for the months ahead, to help keep the auxiliary active and helpful to the home and residents.

Bonnie and George Holliday have returned to their home in Mount Forest after having had 10 good days at Thistlebrae. They said they had the best holiday yet, but spent some of their time clearing out overgrown bushes and shrubs and generally cleaning up around the place. They enjoy swimming, canoeing and walking too.

Just heard that Gordon Harrison is again a patient in Ross Memorial Hospital, Lindsay. We all send our best to Gordon and hope he will soon be better.

Good to have Ted Fawcett, his wife and sweet little daughter along with relatives up for lunch one day during the long weekend. They were staying at Laurdie Cottages in Minden, owned by Laura and Dick Kirkwood. Ted's people have had a cottage here at Hall's Lake for many years. We are sorry to learn that Mrs. Dorothy Villeneuve (Gill's wife) has recently passed away. The Villeneuves adopted Ted and his two brothers when they were orphaned as youngsters, so they consider this part of the country very special. Mr. and Mrs. Cooke of Simcoe have sold their home there and are still busy fixing up their new abode here at the Lake, and hope to spend as much of the year as possible up here. Mr. Cooke is Jean Penick's brother and another brother and his wife are spending the week at their cottage just now.

Some cottagers have been noticing a foam-like substance around the shoreline from time to time and we are wondering if any tests have been taken by anyone recently.

The ladies of the U.C.W. of Carnarvon are planning a bus trip to Black Creek Pioneer Village, near Toronto, on Thursday. Hope it is a good day for an interesting tour.

Mr. Jack Ireland, accompanied by Raymond Oliver and Gerrie McGowan flew in with his Turbo-Beaver plane for a brief visit to Hawk Lake, but landed on Hall's Lake and had a delicious luncheon with Mrs. Mary Oliver at her lovely old farmhouse on the Buckslides Road. The men were going on a fishing trip north of Mattawa but Mr. Ireland wanted to go into Hawk Lake on the way, thus their stop first to see Raymond's mother, Mrs. Mary Oliver. Mrs. Marjorie Watson has had several old friends visiting at her home.

Mrs. Audrey Wilkinson accompanied us Sunday evening to Hyland Crest where we enjoyed seeing the pictures on the Mission Field of Africa shown by Mrs. Ethel Davy and a hymn-sing conducted by Rev. Thornton. We then joined with the congregation of the Gospel Church where Miss Ruth Lambshead showed her slides of her particular missionary work as a registered nurse in another compound in Africa. These two women are sisters and devote their

The Senior League

Chapel service this week at Hyland Crest was performed by Pastor Thornton of the Gospel Church in Minden.....

A week ago Wednesday, Hyland Crest was treated to a group of PLAYERS from Fenelon Falls and Minden. The Group entertained the residents with guitars and fiddles, playing OLD TIME music. The residents had a real toe-tapping time on this evening.....

Then on Thursday, the residents moved outside around their beautiful FOUNTAIN and enjoyed a BARBECUE of hot dogs, hamburgers, corn on the cob, ice cream and iced tea under a gorgeous, warm sunshiny day. The barbecue was served by CHEF MARK SCHELL and his capable staff.....

Mrs. ISABELLE EASTMAN celebrated her birthday during the barbecue and all the residents joined in singing happy birthday.....

Afternoon tea was served shortly after the Barbecue and then Melinda Wood and her nursing staff headed up a jammed pack BINGO.....

On Friday, September 10th after the residents had completed their afternoon SING-SONG, they adjourned to the auditorium for a RESIDENT'S COUNCIL meeting, chaired by President, GLADYS THORNE. The main topics of discussion were the activities for HALLOWE'EN and CHRISTMAS. These will appear in this column at a later date.....

Last week was very quiet with only regular routine undertaken at the HOME. That is until Friday evening, when JERRY McKELVEY drove sixteen residents to EXTENDICARE in Haliburton to take part in the 1st Annual NURSING HOME WEEK-END. Friday night featured an HAWAIIAN LUAU. MURRAY FEARRY, Reeve of Dysart et al, offic-

lives to helping the natives and the children of missionaries. Mrs. Davy teaches music and Miss Lambshead nurses and has been in the Field now for 22 years. They return today to Burlington and to the Mission Field next April.

Sorry to learn of Sinclair Russell being so very ill in a Toronto hospital.

Mr. Peter Altendorf of West Germany has returned to spend a little holiday at his cottage on Lower Welch Lake. He came to Canada some years ago but could not get a good job in his line of work so now he works over there but holidays here.

Mrs. Elsie Bursey is a patient in Civic Hospital in Peterborough, having another operation on her hip. We wish her well and a speedy recovery.

Mr. and Mrs. Marceau who for years were guests at Cherokee Lodge back in the sixties, are touring around the area and called in for breakfast and a visit. Their son is now a grown young man and attending college in Belleville.

"Mr. Chainsaw"

286-2771

Kinette Korner by Beverly Pettes

Well another Kinette year got underway recently with our first meeting held at Mr. Fogg's, Carnarvon. We were pleased to welcome as guests - Cheryl McKnight, Barbara Todd and Joan Roman.

Plans for the FLEA MARKET are reaching final stages. Remember the date - SEPTEMBER 25, 1 p.m. at the Municipal Parking lot. Donations will be gratefully received until September 24th, clothing until the 23rd. Call 286-1934 or 286-1688 for pick-ups. Should be bargains galore with something for everyone. Granted - it is a lot of work but Kinettes have the ability to turn work to fun and fellowship and hopefully it will be a bonanza for our pledge to Cystic Fibrosis.

President Noreen conducted her first meeting in a most expedient and efficient manner despite interjections of frivolity. Following a fairly heavy agenda, elections were held to fill a couple of vacancies on our executive.

The 1976-77 executive is as follows:

President - Noreen Farnsworth, past-president - Jean Stevens, 1st vice - Diane Booth, 2nd vice - Marg Prentice, Rec. Secretary - Chris Archer, Corres. Secretary - Mabel Deacon, Treasurer - Freda Colman, Registrar - Mabel Kerr, Bulletin Editor - Terri Wyllie, Directors - Linda McKnight, Peggy Brown, Pennay Hewitt, Betty Harrison and Beverly Pettes.

Our meeting closed with entertainment in the form of 'Kim's Game' led by Marg Prentice. The conclusion drawn was that Kinettes all have good memories, but some are just shorter than others.

See you all in October - except for Kinette Jean, who along with Kin Lewis will be pearl diving at Acapulco. Happy holiday! Welcome back to October meeting - the Colmans returning from a well-deserved vacation.

ially opened the weekend of festivities and then remained to judge the COSTUME CONTEST, along with WAYNE WOOD, clerk of Dysart. The winner of the most authentic Hawaiian costume was FLO WALLING and runner-up was ETHEL PLEWMAN, both residents of Extendicare. Over 200 residents and guests turned out for the gala evening that ran until almost midnight. Performers for the evening were CARL BOHNE, Harcourt on the piano, EARL COOPER on the violin and BILL GLIDDEN on the xylophone with JAKE GILL performing on the harmonica.

Charles Plewman handled the MASTER OF CEREMONIES chores. Dr. O. ANDERSON of Bancroft distributed LEIS to everyone and MARY CURRAH pinned flowers on all the ladies. The DOLL the residents made and raffled off was won by FRED SIMMONS, of Irondale, with all the proceeds going to the residents' fund, the HAPPY GANG. The six girls on the Extendicare STAFF did the HULA DANCE for the residents and guests in authentic HAWAIIAN COSTUMES....

Seventy people attended the CHICKEN BARBECUE held on Sunday afternoon. After the barbecue the residents all joined in to play BINGO....

Minden hosts
W.I. meeting

by Jeanne Sears

The September meeting of Minden Women's Institute was at the home of Mrs. Wallace Walker on the 15th with Mrs. Lyman Cox in the chair. After the opening, the president welcomed two guests. A minute of silence in memory of Dr. Ethel Chapman was followed by a reading from one of her books, *Memories in Home-spun*. Thirty-one members responded to the Roll Call of First Aid Hints. The usual reports were given and Mrs. Allan Taylor reported sending 73 cards since the June meeting. Collection for this fund and the pennies for friendship were taken. The secretary, Mrs. W. Mac Arthur, is to send a letter to Mr. S. Baker of our public school so that our Christmas Party date, December 15th doesn't fall on the School Concert night.

There was some discussion about the Victoria East District Tea at Bobcaygeon Legion Hall, Oct. 21st and members offered transportation and cookies for this. Tickets for the bus trip to Parry Sound, Oct. 6th were sold or spoken for, as well as meal tickets. Several posters from our School Fair Exhibit were passed

around.

Delegate to area convention in Toronto in November is Mrs. P. Clarke.

Mrs. J. Hulbig gave a paper using Consumer Handbook as source and this gave facts dealing with carpeting and roofing; she gave some ideas to help us with door-to-door salesmen.

The next meeting will be at the home of Mrs. S. Ewing, Oct. 20th at 2 p.m. with Mrs. Taylor having a paper on Canadian industry.

The meeting closed and all enjoyed the delicious lunch served by the committee and a social time was enjoyed by all. Any newcomers to the village are invited to come and enjoy our meeting with us.

Wilberforce launches
drive to save arena

When it comes to monster fund-raising drives the village of Wilberforce takes a back seat to no one.

Faced last week with the very real possibility that their arena would be closed unless repairs totalling more than \$40,000 are made, villagers took up the challenge and began a 'Save the Arena' project.

Determined that their arena with all its many winter activities will not close 'come hell or high water', local ratepayers began offering their time and money to save it.

Kicking off the fund will be a Walkathon on September 25th, followed by a monster weekend appropriately named 'SAVE THE ARENA, AUTUMNFEST', on October 9th and 10th. This will feature helicopter rides, afternoon gardens with live entertainment, in-

cluding the 'HAPPY BAVARIANS Oompa Band', plus a smorgasborg.

Breakfasts on Saturday and Sunday, a Saturday evening dance, a Monster Bake Sale, and many other attractions for young and old alike will round out the weekend program.

Meanwhile, canvassers will be calling door to door and residents are asked to be generous. Donations can also be made to the Save Our Arena Fund and should be sent to the Bank of Nova Scotia in Wilberforce.

OBITUARY

ROBERT GEORGE (BOB) YOUNG

Suddenly at Ross Memorial Hospital, Lindsay on Sunday, September 19, 1976, in his 52nd year.

Beloved husband of Marjorie Kemp; loving father of Connie (Mrs. John Robinson) of Hamilton, Robbie and Scott at home; beloved son of Mrs. Georgina and the late Noble Young of Kinmount; and brother of Grace (Mrs. H. Kelso) of Bobcaygeon, Glenda (Mrs. Clarke Simpson) of Kinmount, Anne (Mrs. Gord Condor) of Barrie and Joe of Geraldton.

Resting at the Funeral Chapel of John Welch & Son Ltd., Minden for funeral service in the Chapel on Wednesday, September 22 at 1:30 p.m. Interment at Kinmount Cemetery.

GORDON BENJAMIN (PETE) SAWYER

At the Red Cross Hospital, Minden on Friday, September 17, 1976 in his 72nd year.

Beloved husband of Mabel Upton; dear brother of Roscoe of Halliburton, Elmer of Minden, Zella (Mrs. E. Packard), Gertrude (Mrs. L. Upton), Lorne, Clair and the late Velma Harrison, Glimmie and William Walter.

DI-GEL GETS

DI-GEL. First the gas. Then the acid.

About
the Town

with Jeanne Sears

Fall activities begin: - Minden Figure Skating Club is having registration at the Municipal Building, September 25th from 9 - 12.

Some owe success in life to luck,
Some owe it to their mothers;
But most acclaim the good advice
They didn't take from others.

Sunshine Magazine.

Do you think this is true? Happiness is being married to your best friend.

Barbara Weeks.

Mrs. Verna Jarvis visited a few days recently with her daughter and son-in-law, Mr. and Mrs. Donald York at Mountain Lake, and sister, Mrs. Helen Brown at Hall's Lake. Joke of the week: Sitting on grandfather's lap and looking into a mirror, the little one asked - 'Did God make both of us?' Grandfather replied, 'Yes, my dear'. Then she said 'Looks like He's doing better lately.'

Mr. and Mrs. Bob Ackerblade leave September 26 for a weeks holiday in Puerto Rico. This is a trip which Bob won selling parts at Coneybeare Motors.

Card Parties begin at the Orange Hall, Monday evening, September 27th where you may enjoy cribbage and euchre. Mr. and Mrs. Phil Robinson visited Mr. and Mrs. Ern Voycey at Gamebridge on Sunday.

I used to know a teacher,
Her name was Mrs. Fitz,
And every morn at school,
She always smelled of mists.
She was a Grade 6 teacher,
I liked her very much.
She'd feed us full of worth,
Like spelling, math and such.
Mrs. Fitz was very charming,
As charming as can be.
And when she is alarming,
She turns into a bee.
So every day I think of her,
And think of her a lot.
I think it's a nice warm feeling,
To have her in my thought.

Joanne Jarrett.

Congratulations to Nina and Leslie Prentice who celebrated their 40th Wedding Anniversary over the weekend.

Sincere sympathy to the families and friends of the late Miss Jane Whistle, Mrs. Max Emmerson, Mrs. Morley Sipe, Pete Sawyer and Bob Young, Sr. who passed away recently. The Kinette Club plan a Flea Market in the Municipal Grounds on Saturday, September 25th with proceeds for Cystic Fibrosis.

Mini Card Parties begin October 30th at St. Paul's Parish Hall at 1:30 sharp. Here you may play euchre, cribbage or bridge and everyone is welcome to come out and meet, 'Our Gang!'

Lovely week and weekend was followed by heavy rain on Monday and this may continue for several days according to the weatherman (if he knows).

We will be having busloads of people coming for Colour Tours, hopefully the trees will become more colourful as there is not much colour as yet.

Lots of visitors on the weekends, so drive carefully. Cheerio until next time.

SATURDAY, OCTOBER 9, 1976
between the hours of 10 a.m. and 12 noon
to discuss the proposed
RESTRICTED AREA BY-LAW
for the
TOWNSHIP OF STANHOPE

Graham Sadler of Ottawa isn't happy about his fuel bills, but he hasn't added insulation.

Last winter,
this Ottawa house
cost Graham Sadler
\$443 to heat.

Graham Armstrong of Ottawa added insulation to his attic and basement walls. Now he's saving energy and money.

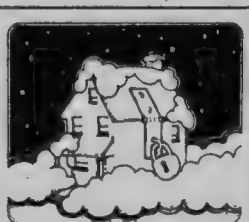

Last winter,
this Ottawa house
cost Graham Armstrong
only \$335 to heat.

Why the difference? Insulation.
These days it's one of the best
investments you can make.

Keeping the heat in helps to conserve Canada's
dwindling energy reserves. And cuts your fuel bills.Add insulation, caulking, weather-stripping and
storms. Have your furnace tuned for peak efficiency.
Keep a light hand on the thermostat.You'll save money for yourself, and help Canada
to conserve energy and fight inflation. No wonder
insulation is one of the best investments you can
make. Remember, too, that many insulation products
are now exempt from Federal sales tax.

These two free books
show you how to save
energy and
money. Mail
the coupon

IT'S A FACT!

A great number of good men who are looking for a part-time job are joining the U.S. Marine Corps Reserve, which provides on-the-job training and good pay for one weekend a month and two weeks a year of work. For free information call 800-423-2600, toll free. Californians call 800-252-0241 toll free.

Amalgamation of nurses defeated

In a report to Haliburton County Council last week, Keith Tallman, Chairman for the Haliburton Health Committee, told Council that the Kawartha Pine Ridge Health Unit held a meeting in Peterborough last week in an effort to amalgamate the public health nurses in the four Counties served by the unit: Northumberland, Peterborough, Victoria and Haliburton. Mr. Tallman went on to say that the vote taken by the 61 delegates present, was 23 - 18 against amalgamation.

Management also advised the Public Health Nurses

that the lock-out which was to take effect on October 15th if a settlement hadn't been reached by then, has been extended to December 31st. The Board assured the nurses that they would not

be locked out this year. The Kawartha Pine Ridge Health Unit nurses are hoping that the government will grant them compulsory arbitration. The Board remained firm in

its stand that they will not go higher than the 7% they offered in May of this year. Things appear to be no better than they were on May 10th when the nurses were initially locked out.

\$4,000 fine

Eddie McGahey, former owner of Hollow Valley Lodge and Tavern in Dorset was fined \$4,000 or 18 months in jail for willful tax evasion of \$4,800 in Lindsay court last Thursday.

Last May 25th McGahey, his wife and Hollow Valley Lodge and Tavern Limited, were co-defendants on a charge of tax evasion under the Provincial Retail Sales Tax Act. They pleaded not guilty in Minden Provincial Court.

Thursday in Lindsay Provincial Court, McGahey changed his plea to guilty and the court then dropped all charges against his wife and Hollow Valley Lodge and Tavern Ltd.

ARENA

FROM P. 1

arena to continue in use during the duration of the repair work 'providing our engineer can establish an acceptable monitoring program with continuous control and surveillance by the persons in charge at the arena'.

Of the total cost of repairs some 75 percent will be borne by provincial grants and Wintario funds. The balance of 25 percent is to be raised by public subscriptions, Mr. Tallman explained, leaving the municipality's tax rate unaffected.

\$3,000 cash stolen

Almost \$3,000 in 'casual spending money' was stolen from a West Guilford home by a sneak thief last Thursday while the owner was sitting on his front lawn.

Andy Sisson, 78, was relaxing in his front yard while his wife was at a church meeting when a thief slipped in through Sisson's back door and stole some \$2,960 in cash denominations of ten and twenty dollar bills.

The money was in four envelopes inside his wife's white purse and concealed under a blanket on a bed in the house. Mr. Sisson told police he kept the cash around the house as casual spending money.

Slightly more than \$1,100 was recovered, still burning, from the West Guilford dump.

Investigating officer is Prov. Constable Roy Telford.

Wages vs prices. What's happened in 1976.

The anti-inflation program is nearly one year old.

The program was announced last October 14 and the Anti-Inflation Act was passed by Parliament in December. The goal was to create a fair and stable economic climate for all of us. Guidelines were established for the control of prices, profits, incomes, dividends and professional fees. The federal government established a policy of spending restraint. The provinces are supporting the program and are applying guidelines in areas of provincial concern such as rents.

The target of the first year of the anti-inflation program was to bring inflation down from a rate of 10.8% to 8% or less. This goal is going to be reached. Still, many Canadians are concerned about rising prices and may feel in fact that prices are rising faster than their family incomes. For most of us, this is not the case. The facts prove that since the start of the program most of us are better off than we were before because salaries, on average, are keeping ahead of prices.

Prices

Last year, sudden and frightening price increases were happening all too often. By October, 1975, Canadians had experienced 20 months of inflation of 10% or more. No one could be sure how far the dollar earned one day would stretch the next. The anti-inflation program was brought in to control the rise in prices, giving Canadians a better chance to plan and live within their family budgets. Price increases have slowed down. By August, the annual rate of increase in the Consumer Price Index had dropped to 6.2%. Although some price increases have to be expected this month and next, the 8% target will surely be met.

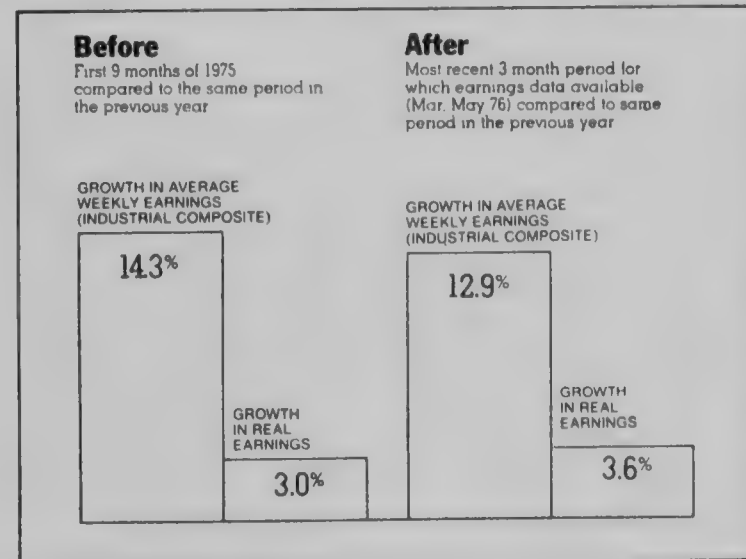

Wages

The anti-inflation program has also helped to restrain increases in wages, salaries and other incomes. The Guidelines on compensation allow for a basic increase of 8%, plus 2% as a share of national productivity growth. Another 2% can

be added or subtracted depending on whether a group had kept up with or fallen behind cost of living increases before the program began. More than half of the agreements and settlements reported to the Anti-Inflation Board have been within these arithmetic guidelines. A gradual downward trend in wage increases has started and it should continue as more Canadians realize that because of declining inflation, settling for less won't hurt them.

The real gains

Since the start of the anti-inflation program, the average Canadian has actually improved his or her buying power. This is because lower wage increases along with lower price increases have resulted in a gain in real incomes. The real gain is worked out by taking the actual increase in earnings and subtracting from it the effects of higher consumer prices. Real incomes are probably the best measure of how we're doing, of how we can manage to pay our bills at home. By this spring, real incomes were up 3.6% over last year.

Controls on both prices and incomes are part of the reason why the inflation rate is dropping. The co-operation and hard work of most Canadians is the rest of the story. We will soon be moving into the second year of the program, with a goal of lowering the inflation rate to 6% or less. Working together we can reach this target too.

TEAM CANADA 1st 'CANADA CUP' CHAMPIONS

FANTASTIC, that is the only expression I can come up with to describe the Canada-Czechoslovakia play-off game on Wednesday evening. Team Canada came out on top 5 - 4 in sudden-death overtime to win the Inaugural Canada Cup Hockey Tournament.

Darryl Sittler was the hero for Team Canada in this match, scoring a beautiful goal late in the first period of overtime. Lanny McDonald slipped a pass ahead to Marcel Dionne at centre ice and Dionne hit a flying Sittler at the Czech blueline with a perfect pass, that he slipped between defencemen Bubla's legs, faked a slapshot on goal, pulled the puck back and went around a sprawling Vladamir Dzurilla, to score as pretty a sudden-death goal as you'll ever see.

The Canadian team scored twice before this, in the overtime, but both times the goal was called back by the referee once when the net was jarred off its pegs and the second at the half-way buzzer.

Gilbert Perreault opened the scoring for Team Canada with another brilliant end-to-end rush, finally sliding the puck past a faked-out Jiri Holecchek. Two minutes later, Team Canada got another soft goal, when Phil Esposito fired a shot low into the net from twenty feet.

In the second period Czechoslovakia pulled to with one on Milan Novy's goal. In the third, Canada gave up its first powerplay goal of the series by Jaroslav Pouzar, five minutes later Canada's Bobby Clarke picked up a Bobby Hull rebound and fired the puck between Osrilla's legs, once again giving Canada the lead 3 - 2. However, another Team Canada penalty allowed Augusta to once again tie the score. With less than three minutes to play in regula-

tion time, Marian Stastny, put this team up 4 - 3. Then with just over a minute remaining, Bill Barber sent the game into overtime with a rising slap-shot. This then led to Darryl Sittler's heroic overtime goal.

Rogatian Vachon was named the Most Valuable Player in the series for Team Canada and walked off with the Toyota Corona Mark II. Milan Novy of Czechoslovakia won the top award for the Czech team. Bobby Orr was named the Most Valuable Player of the entire tournament and Allan Eagleson was presented with an appreciation award of an Eskimo carving for organizing this great tournament.

The format at this time for future World matches has been set up in this way:

a) for the next three years Canada will send a Team Canada made up of teams in the N.H.L. and W.H.A. who have been eliminated from the play-offs. The first will be 1977 in Vienna, Austria in late April.

b) every fourth year the Canada Cup will be played for by the best players Canada can ice. It appears at this writing that the Canada Cup will be played in Canada every four years.

Already under discussion is another series of games between Soviet Club teams and N.H.L. sides, possibly for late December and early January. Allan Eagleson, president of the N.H.L. Clarence Campbell and Andrei Starvoitov, the U.S.S.R. hockey heavyweight, met this week to explore the possibility.

The proposal would see two Soviet clubs visit North America for a series of games against N.H.L. teams and not necessarily the top pro clubs.

Sports Briefs

O.M.H.A. - Minden Minor Hockey registration will take place this Friday, September 24th at the Minden Municipal Building from 7 - 9 p.m.

Fee this year is \$20.00 per child and a maximum of \$60.00 for three or family, if more than three youngsters in one family play hockey. This \$20.00 also includes O.M.H.A. insurance.

BOWLING - Just a reminder to all 1000 Lakes Bowling members and non-members, that there will be a Bowling Clinic in Carnarvon on Saturday, October 2nd at 8 p.m. and on alley instruction on Sunday, October 3rd at 10 a.m. This clinic is put on and sponsored by the Master Bowlers of Ontario. Walter Heeney, Director of Public Relations and a Master Bowler will be handling this clinic and will be ably assisted by Master Teacher Ron Robinson Sr. of Carnarvon Lanes.

So, if you are in need of some help in improving your bowling game or even if you are an accomplished bowler, come on out to Carnarvon on the 2nd and 3rd of October to this very worthwhile clinic. You will be a much better bowler because you came than if you were to ignore the opportunity.

1000 Lakes Bowlers are also reminded to get their entry forms in for the Mr. and Mrs. 1000 Lakes Bowlers tournament which commences October 3rd, with the House Round. All married bowlers and those couples maintaining a home that are members of the 1000 Lakes Bowlers Association. Entry fee is \$4.00 a couple in the House Round plus lineage and just lineage at the Zone Round in Bancroft on October 24th.

Minden footballers win 39-6

In the interest of community relations and good sportmanship, young men from Minden played a touch football game against their counterparts from Port Carling last Sunday, in Minden.

Minden played poor hosts as they racked up an impressive 39 - 6 victory.

John Pentney, Scott Harvey, Kim Colliss and Barry Ward hauled in touchdown passes while Harvey ran another one in for a touchdown. Warren Payne kicked two field goals and three converts for the winners. Dwight Thomas handled most of the quarterbacking duties.

Port Carling's only touchdown came in the second half, after Minden had built up a substantial 25 - 0 half-time lead.

Minden players will be participating in the annual Port Carling 'Turkey Bowl' on Thanksgiving weekend. It is hoped that this will become a semi-annual sporting event.

Rosenberg wins

PROGRESS OPEN SMASHING SUCCESS Winners

The first annual Minden Progress Open Golf Tournament held at PineStone Inn and County Club last Sunday was a huge success. Forty-six golfers from around the County of Haliburton, teed off at 9:30 a.m. Sunday and when the tournament was over, Ken Rosenberg of Haliburton emerged the first open winner with 83, over the beautiful but tough, Ping Stone course.

Every golfer in the tournament had nothing but the highest praise for this splendid course and although a few of us lost some balls in the trees, all are anxiously awaiting the official opening of the course to the public next spring.

As previously mentioned, Ken Rosenberg took the top low gross honours with an 83. The low net winner with a splendid 69, was the Progress' own editor, Bill Foote.

In A-Flight, first spot went to Kirk Hewitt with 72, second spot to Bob Smith, also with 72 and third was Hugh Nichol with 72½.

In B-Flight, first was Murray Stevenson with 72, second was Bob Nichol Jr. with 72 and third was Bob Nichol Sr. with 72½.

C-Flight winners, first was Alf Wickens with 73½, second was Bill Misener with 74 and also at 74 and third place was Art Ward.

The longest drive on a par five went to Jack Nicholas, of the Open, Kirk Hewitt, with a plus 300 yarder on the 470 yard fifth hole. Dr. Dennis Murphy took the top prize for his splendid tee shot on the par-three 173 yard sixth hole. Dennis put his drive inside the three foot mark. The most honest golfer award for the tournament went to Craig Stamp, who shot a respectable 117. The Crying Towel went to Jack Gregory for his 110 score and promised to try harder next year.

The Frustrated Golfer trophy was won hands down by Tom Boice. Tom is a very interesting golfer when he gets on a course. Most people, when their tee shot lands behind a tree will move the ball, however, Tom is different, he moves the tree.

After the tournament, the golfers were treated to one of the finest buffet dinners this writer has ever seen. On behalf of all the golfers in the tournament, I'd like to express our sincerest thanks to Innkeeper Art Ward and his Assistant Manager Bret Zufelt for just a super job.

1st MINDEN PROGRESS OPEN, WINNERS' (l-r) BILL FOOTE, LOW NET AND KEN ROSENBERG, LOW GROSS.

PROUD FLIGHT WINNERS - (l-r) KIRK HEWITT, A-FLIGHT; MURRAY STEVENSON, B-FLIGHT and ALF WICKENS, C-FLIGHT.

GOLFING FAMILY - PRIZE WINNERS (l-r) BOB NICHOL JR. 2nd IN B-FLIGHT; BOB NICHOL SR. 3rd

IN B-FLIGHT AND HUGH NICHOL, 3rd IN A-FLIGHT.

NATURAL RESOURCES

THE BIG PINE - The big old white pine can be found in many places in Algonquin. For example, you can see a fair sized tree right on Highway 60 at Mile 18.6 and there are many places in the Park Interior where the horizon is broken by a giant old pine towering high above the surrounding forest. But although such trees are not really rare, the fact remains that they are isolated, scattered, individual remnants of the white pine that grew here when the pioneer loggers first pushed up from the Ottawa Valley over 100 years ago.

This is what makes our two old pine natural zones so special - they are the only places left today where you can go and see what the original old forests of Algonquin were like. Only there can you see reasonably extensive stands (as opposed to isolated individuals) of ancient white pine.

The first of our stands (set aside back in 1938 by Supt. Frank MacDougall) is located almost exactly in the centre of the Park, just east of Big Crow Lake. It is about 180 acres in size and can be reached by following a mile long trail starting at the dam on the Crow River.

The other stand is actually just outside the Park at Dividing Lake on our southwestern boundary. The best way to get there is by paddling south from Smoke Lake.

If you do visit either of these stands, be prepared for a surprise. Although they are both among the finest remaining stands of white pine, not only in Ontario, but in all of North America, it is quite possible to stand in the middle of either one and not see a single pine. But don't give up. As you explore further, in a forest of sugar maple, beech and yellow birch, your eyes will suddenly stop on a massive column rising from the forest floor and disappearing into the hardwood forest canopy above. Then, away off in the forest you will see another ponderous column, and perhaps a third in a different direction. These are the huge trunks of the 300 year old pines, many of them over 40" in diameter. Only if you find a break in the hardwood canopy and crane your neck will you be able to see the first branches on these forest giants, let alone their towering crowns 130 feet or more above the forest floor.

While there is no denying that these old pine are mighty impressive, many people find it hard to believe that the stands themselves, with only one to three pine per acre,

The Pines

THE Raven

can be truly representative of Algonquin's original forests. We have all heard the old accounts of the Ottawa Valley being 'blue with pine' and so we conjure up the mental

picture of vast, solid stands of white pine. This may have been accurate in some areas but in most of Algonquin the pine grew just as we see them at Big Crow and Dividing Lakes today - as individual giants scattered among mature hardwoods. The distribution of old rotting pine stumps, still visible today in our west side hardwood forests, is much the same.

The stumps are all that are left of most of the Park's original big white pine. The loggers of the 1800's, toiling with axes and horses felled the great trees, squared them (you can see an example of this at the Pioneer Logging Exhibit), and floated them out of the Park each spring. In spite of their primitive technology and the remoteness of the Park area it took the pioneer loggers less than 70 years to take almost all the big pine in Algonquin. It is only due to some fluke of history that our two stands were spared.

Today, of course, they are protected as official natural zones, but we should be under no illusions as to their eventual fate. Like all trees, the big pine will die someday - probably within the next 100 years or so - and the prospects are not good that they will be succeeded by more big pine. Young pine can rarely establish themselves in

the thick layer of dead leaves in hardwood forests and even if they do, cannot tolerate the shade of the trees overhead. You might wonder then, how the original big white pine

got established. Well, all indications are that lightning-caused ground fires occasionally burned off the dead leaves and killed some of the bigger trees, thus allowing more light to reach the forest floor. These are precisely the conditions that would permit white pine to get established and put on good growth before the hardwoods could recover enough to shade them out. Even if such fires occurred only once every two centuries on any one given area, they would nicely account for the scattered presence of giant pine among our original hardwoods.

The catch is that today we put out all fires - whether they are natural or not - and this does not bode well for the return of white pine to most of our hardwood forests. Exceptions to this are the primitive zones and watershed natural zones where the Ontario government has announced its intention to allow natural, lightning fires to burn.

This policy is not yet in effect and even if it were we cannot expect to see any really big old pine in those zones for another 200 years. If you don't want to wait that long, go see the stands at Big Crow or Dividing Lakes. They're open for business now!

Along The Trails

with
The Highland Snowmobiler
and Roy Bates

THEY'RE THINKING SNOW ALREADY! Two snowmobiler parties were held Saturday night, September 18th, to kick off a new snowmobiling season in Haliburton County. The Kennis Lake Snowmobile Association 'do' was a membership meeting and social get-together at Haliburton Forest and Wildlife Reserve. The Haliburton County Snowmobile Association's Autumn dance was held in the Minden Community Centre. Highlights of both occasions were the drawings for a new snowmobile.

No report is available at this time on the success of the KLSA party beyond the fact that their limited edition draw (200 tickets at \$10) was well on the way to a sell-out several days prior to the meeting. The snowmobile drawn is a Moto Ski Spirit. Proceeds of the raffle will assist the club in obtaining more and better grooming equipment for the coming season. We wish this 91 family group every success in this second year of operation.

At the Minden Community Centre, members of the HCSA turned out in great numbers to enjoy dancing to the excellent music of Carm Peters with his Uptown Country Sound. It seemed to us that every other dance was a spot dance - so a goodly number of people took home valuable prizes. Our sincere thanks to the many donors of these items.

A modest profit was realized from the SkiDoo Elan draw. The happy winner was Kenneth J. Fielding, R.R. 1, Minden Name sound familiar? He's President Ken's father. We trust he will get much enjoyable riding out of the machine this winter.

WE ALL WIN WITH WINTARIO - President Ken was pleased to announce the awarding of a Wintario Grant to the Haliburton County Snowmobile Association. The good news we've all been waiting for is that the Ministry of Culture and Recreation has approved a grant of up to \$15,058 for capital expenditure in the club's \$30,116 trail improvement project. It is planned to use the money toward the purchase of a second Bombi grooming unit, reflective trail markers, and clubhouse facilities.

The money is, of course, not yet in hand, nor will it be until the association has fulfilled certain parts of the agreement. In short, we must demonstrate our ability to raise an equal share in the project. A cursory examination of the document indicates that this may include monies now in hand, value of properties and equipment to be used in the project, donations or pledges from the corporate or private sector, and value of volunteer labour. It is highly probable that after the allowable assets of the club are tabulated and certified to the satisfaction of the Ministry, there will remain a need for additional fund-raising. Since the entire project is designed to enhance facilities for winter recreational pursuits, (winter tourism) in Haliburton County, for the general public, it is anticipated that the business community and the snowmobiling public will be supportive.

A date to remember The Haliburton County Snowmobile Association open meeting, Monday, September 27th, Arena Auditorium, Haliburton at 8:00 p.m.

Drumhead service to feature 400 drummers

The Canadian Legion Branch 624 at Wilberforce will play host this Sunday to a mammoth Drumhead Service featuring more than 400 Legion drummers.

An annual Canadian Legion Zone-F5 event, the service will commence at 1 p.m.

Past District Commander John Maw will lay a wreath at the cenotaph. This will be followed by Last Post-Silence of Remembrance Reveille. The invocation will then be read by Padre Russ Naylor of the Oshawa Naval Club.

A giant parade will then leave the Wilberforce Legion and march to the local arena. At the arena, Zone Chairman Wally Smith will introduce Zone Commander Jack Adams, who in turn will officially open the ceremonies.

Official guests who will be on hand include: M.P. Bill Scott, M.P.P. John Eakins; Reeve of Monmouth Township, Gary Agnew; guest speakers, John Maw, Past District Commander and Jack Adams, Zone Commander.

The closing ceremonies will be handled by Deputy-Zone Commander of F5 North Tommy Foster.

The Haliburton Association for the Mentally Retarded requires
1 FULLTIME WORKSHOP SUPERVISOR to work at the Sheltered Workshop (ARC Industries). The job will commence on the 1st of October, 1976 and continue until December 31, 1976, after which the number of hours worked per day will be discussed. For the successful applicant an understanding of the problems of mental retardation is essential. As well, a working knowledge of psychology education and rehabilitation would be very helpful, while experience in programming for life skills and work-training skills would be a definite asset. Equally important as an academic orientation are personality creativity and emotional maturity. Please send resume to:
Box 90,
Haliburton, Ontario,
457-1452.

IN MEMORIAM

STEVENSON - In loving memory of my dear husband, Garnet, who passed away suddenly September 23, 1975. God saw you were getting tired, When a cure was not to be. So He closed His arms around you, And whispered 'Come with me.' You did not deserve what you went through, And so He gave you rest God's garden must be beautiful He only takes the best. Lovingly remembered by wife, Chub. 709-1p

STEVENSON - In loving memory of a dear dad and grandfather, Garnet, who passed away suddenly on September 23, 1975. A golden heart stopped breathing, Two working hands at rest God broke our hearts to prove to us He only takes the best The blow was hard, the shock severe. We never thought his death so near. Only those who have lost can tell. The pain of parting with-out farewell. Lovingly remembered by Lola, Garwood, Judy, daughter-in-law Evelyn and granddaughter Sheila. 709-1p

100 enjoy firemen's dance

Some 100 persons were on hand to enjoy the Minden Fire Department's dance held in the Minden Community Centre last Friday night. Excellent music was provided by disc jockey Tommy Williamson while the firemen and their wives supplied a delicious buffet to top off the evening.

Proceeds from these events go to help support our volunteer fire department which provides a vital community service. However, 'Members of Anson, Hindon and Minden council were conspicuous by their absence', a disappointed Fire Chief 'Deac' Jackson stated.

Culverts for Dorset, Essonville

Culverts at the entrance to Dorset from Highway 35 and on Essonville Road are to be replaced immediately, Haliburton Council learned last week. Presented by Roads Committee Chairman, Sinc Nesbitt, the report announcing the culvert projects was prepared by County Engineer Bill Obee who told council that other roads projects currently underway include widening of the In-Lake Road.
